

# GETA Young Scientist

## Samsya Khoj Contest

1e (First Edition), 24.04.2024

<i>Result</i>	<b>Consolation Prize Winner</b>
<i>Problem Title</i>	<b>Dumping used plastic pens is a problem</b>
<i>Problem Description</i>	School students write with 'use and throw' plastic pens. In our school, weekly output of this plastic waste is around 4-5 kg. We have been told by our teachers that burning plastic causes pollution. But garbage houses near school burn all the waste. As a result, air is very polluted. Can we think of a solution to this problem?
<i>Affected Audiences</i>	School students and nearby people
<i>Impact Size</i>	Hundreds and more
<i>Location</i>	Urban
<i>Scope</i>	National
<i>Place</i>	In public
<i>Occurrence</i>	Frequently
<i>Life risk involved?</i>	Yes
<i>Financial loss or Saving potential</i>	Lakhs or more
<i>Student</i>	<b>Anshika , 7th Class</b>
<i>School</i>	<b>Ramjas Public School, Delhi, West District, Delhi</b>
<i>Guide Teacher</i>	<b>Renu A Kumar</b>
