

Good afternoon

GETA YOUNG SCIENTIST Program Team

I am honoured to share my feedback for the Young Scientist Avishkar Award initiative. This platform provides an excellent opportunity for students and teachers to showcase their creativity, scientific thinking, and innovative ideas. It encourages young minds to identify real-life problems and develop practical solutions, thereby nurturing a culture of inquiry, research, and innovation. The award not only recognizes talent but also motivates participants to think beyond textbooks and apply scientific knowledge for the betterment of society. The well-organized process, guidance, and encouragement provided by the team inspire confidence among students and educators alike.

I sincerely appreciate the efforts of the organizers in creating such a meaningful initiative. I strongly recommend teachers and students to participate in the Young Scientist Avishkar Award, quizzes, Samasya khoj as it serves as a wonderful platform for learning, innovation, and personal growth.

Best wishes to the entire team for continuing this noble mission of promoting scientific temperament and innovation among the younger generation.

Regard
